PATENT TRADEMARK OFFICE

Dear Sir:

I, Karen A. Fitzsimmons, represent the Applicants in the present application. In prosecution of this case, an Office Communication from the U.S. Patent Office dated February 12, 2004 was received. A reply to the Office Communication was mailed to the U.S. Patent Office on February 24, 2004.

On December 6, 2004, Examiner Dawson contacted me by phone inquiring as to whether or not a reply to a Communication dated May 2004 had been submitted. A search of the file jacket and docket records was conducted for the Communication of May 2004. Neither the file jacket nor the docket records indicate that the Communication of May 2004 was received. A copy of the docket record where the non-received Office Communication would have been listed had it been received and docketed is attached. Also submitted herewith is a Declaration signed by the Docketing

Supervisor, Jodi Gandel-Klien, attesting to the fact that the Communication of May 2004
was not received.

Date: Dec. 20, 2004

DECLARATION OF JODI GANDEL-KLEIN IN SUPPORT OF PETITION
TO WITHDRAW HOLDING OF ABANDONMENT

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, Jodi Gandel-Klein, declare and state:

1. I am the Docketing Supervisor for Merchant & Gould, the law firm prosecuting the above-referenced patent application. I have been Docketing Supervisor since November 17, 1997.
2. I am responsible for overseeing all incoming Patent and Trademark Office communications and oversee those responsible for seeing that these communications are properly docketed and entered into our computerized docketing system.
3. Incoming mail received by the firm is sorted into correspondence that may require docketing and correspondence that does not require docketing. The correspondence that may require docketing is further distinguished between correspondence from the Patent and Trademark Office and other correspondence. After the incoming mail has been date stamped to show date of receipt, a member of the firm's docketing department retrieves the mail that may require docketing and brings it to the docketing department. The appropriate personnel then docket the correspondence.
4. If such an Office Action had been received, the communication would have been docketed by entering into the computerized docket system the date the Office Action was mailed. The computerized docket system would then calculate the due dates for response to the Office Action up to the six month statutory deadline. The first page of the Office Action would then be initialed by the person docketing the Office Action to indicate that it had been docketed and forwarded to the attorney responsible for the patent application for further action, e.g., reporting to the client, etc.
5. I have reviewed the records in the firm's docket system and find no entry for the Office Communication of May 2004 for this application, nor any other evidence that would suggest that the Office Action actually was received by the firm.

6. In view of the above, I believe that the Office Communication of May 2004 for this application was never delivered to the docketing department for docketing.

7. I declare that all statements made herein of my own knowledge are true and that all statements made on information belief are believed to be true; and further that these statements were made with knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18, of the United States Code and that such willful, false statements may jeopardize the validity of the application or document or any registration resulting therefrom.
